

Longway® is a modular system of narrow and wide ribbons of upholstered seating which undulate to form seats and armrests creating large central or terminal curved lines. Longway enhances an environments' quality with its particular play of shapes: the basic composition creates results never seen before, the alternation of curves and horizontal planes offers a marked visual impact. The broadness and versatility of the collection allows limitless compositions. **The collection includes single and modular elements:** benches, sofas and tables (Longway® tables) that forms islands, linear, angular benches, "C" or curved compositions and is aimed particularly to contract environments such as lobby, waiting

room, shopping centers, airports, hotels, showrooms. Longway® is also suitable for semi-public spaces as stay, relax and informal meeting area.

The large plan is suspended between floor armrests or on brushed stainless steel legs, powder coated or satin chromed steel legs. The internal frame is constructed of steel and upholstery of different densities of non-deformable polyurethane foam, lining of polyester padding.

For articles IH/IW09, IH/IW10, IH/IW41, IH/IW42, IH/IW70, IH/IW72 and IH/IW73 the internal frame is in plywood.

The modules IH11/IW11 and IH12/IW12 have the internal frame in steel and cold injected

polyurethane foam.

Fire retardant inner padding meets "California Bulletin 117A" and "Italian Class 1 IM" Standards.

Special foam meeting the 5852 British Standards is available on request.

Covers are available in fabric, faux-leather or C.O.M. (preferably in solid colours). Possibility of upholstery using different materials or two colours of the same material with additional cost.

Seat height           IH: 38 cm  
                                  IW: 42 cm

For Longway® tables see "Tables" section.  
For Longway® outdoor see page 168.

## Configurations
